

Column Extended Stock Range Now Available from Myson

With design radiators now at the forefront of the radiator revolution MYSON have extended their ever popular COLUMN range to include even more sizes, giving greater flexibility and increased options to the customer.

The extended range now includes 60 stocked sizes which are available in vertical and horizontal models, with heights ranging from 300mm to 2000mm and lengths from 300mm to 1800mm. There are a number of types available including 2, 3 and 4 column, with other non-

stocked sizes available on request.

The MYSON COLUMN radiator is manufactured using a unique laser welding process that virtually eliminates visible welding points. It combines elegant style with practical design and creates a selection of new interior design possibilities for a wide combination of projects.

The robust design of the COLUMN means that it fits perfectly in commercial spaces such as schools, libraries and museums, as it offers a traditional feel with modern performance. However, at the same time the high heat outputs and attractive design fit in perfectly with smaller domestic spaces.
